SC PERFORMANCE GOAL

2010 Goal:

By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:

By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The Latta Middle School Team was excited about offering algebra at three levels to all eighth graders for the first time. Rigor has been the word of the year. Sixth and seventh graders were challenged with more in-depth skills as they prepared for the upcoming years. In other words, everything was moved up a notch in the endeavors of our algebra classes. Eighth graders were also given the opportunity to earn high school credit in French or Spanish. A large number of our seventh graders received French or Spanish Culture classes. Teachers started the year early in order to make preparation for these new challenges. Additional training was provided for the staff because we had single gender core classes for both sixth and seventh grade students. The decision was made to continue with our Enrichment Classes based on the data collected from the administration of MAP. However, due to some scheduling restraints, we again had to use across-grade grouping so as to have the small grouping scenario that is essential for optimal success. Our Functional Behavioral Interventions have played a vital role in our school. The check-in system has been the saving grace for many students. It has truly moved our PBIS (Positive Behavior Interventions and Support) system to the next level. Grade level teams have worked diligently to perfect the positive and proactive traits modeled via the PBIS system.

LMS's partnership with Francis Marion University and the Center of Excellence continues to be beneficial. This partnership continues to help provide professional development opportunities for our staff. It also provides opportunities for grants to assist in providing incentives as we promote school-wide positive behavior. The Art Club was very successful with their First Annual Art Show; which was host by Mojo's on Main. It was truly an evening to be remembered. Students even had the opportunity to sell their art work. Technology remains a major focus. Half of our eighth grade students were a part of a one-to-one laptop initiative. Many great things are in the making via the integration of their core teachers working together to utilize this technological vehicle. Before the school year ended, we were informed that the entire eighth grade class will have these laptops in 2009-2010. PTO meetings, Academic Subject Nights, Career Exploration Sessions, ABC reception, Doughnuts for Dads, Muffins for Moms, and our Winter Festival continue to actively involve parents and community with our school. We also have SIC members who are willing to assist us. Our National Junior Honor Society is growing, and our discipline referrals are decreasing. Staff and students continue to support fundraising efforts for the St. Jude Children Hospital via the Math-a-Thon. We also raised money through the March of Dimes, Relay for Life, and to meet the needs of some of our own students and the troops abroad. In addition, we are up by one with our Junior Scholars. There are seven this school year.

Thanks to our staff, teachers, students, parents, and community members for a job well done.

Maribeth Osborn, SIC Chairperson
Martha W. Heyward, Principal
